The last two hundred years show the emergence of an enormous growth industry in the field of Biblical analysis, particularly on the evidence presented in the Gospel accounts of the life of Jesus Christ. But most often the exhaustive analysis brought to bear on the Gospels is dominated by a biased point-of-view against their authenticity. Authors who have taken the position of "liberal" criticism claim that the Gospels do not show the true Jesus, but one who has been idealized and mythologized by his followers. Written by faculty from the University of Navarre, this book takes the approach of a careful study of the texts and their surrounding circumstances to show that the Gospels are both a reflection of the Apostles' preaching about Jesus as well as trustworthy historical testimonies to his life and work..

Refugees have been part & parcel of the social history & landscape of the British Isles since time immemorial. They have come in waves and they have arrived in droves. They have melted into the DNA pot, enhancing and enriching all aspects of society. Growing up in the Thames Valley, the author would often hear the Italian name Gagette, one or several refugees who arrived on these shores as a result of the French Revolution. One Gagette descendant married into the Meers family of Dickensian Bethnal Green; and they were poor by the standards of some of his other ancestors. It was when Eliza Priscilla Meers married a hard working and enthusiastic young man who was to work as an engineer in Gibraltar and later as the Thames Conservancy Engineer for the area between Teddington and Windsor, that fortunes changed for the better. But in ancestral research, change is never far away it seems and tragedy can be found just around the next bend of Old Father Thames. For, like that river, life has its currents and eddies..

Among their number were no fewer than three popes and a powerful and influential queen of France. Their patronage brought about an explosion of Florentine art and architecture. Michelangelo, Donatello, Fra Angelico and Leonardo are among the artists with whom they were associated. Thus runs the 'received view' of the Medici. Mary Hollingsworth argues that the idea that they were wise rulers and enlightened fathers of the Renaissance is a fiction that has acquired the status of historical fact. In truth, the Medici were as devious and immoral as the Borgias – tyrants loathed in the city they illegally made their own and which they beggared in their lust for power.

Israel, the Church, and Millenarianism breaks new ground by applying an ancient principle to the problem of Israel's "replacement": the early Church's promotion of millennialism. Utilizing the best in Patristic research, Aguzzi argues that these earliest Christian traditions made room for the future of Israel because Christ's reign in the Church was viewed as provisional to his historical reign on earth—Israel's role in salvation history was and is not yet complete. Aguzzi's research also opens the door for a greater Catholic understanding of the millennial principle, not shying away from its validity and relevance for understanding the importance of safeguarding Jewish particularity, while concluding that the Synagogue and the Church are indeed on a parallel trajectory; "...what will their...[Israel's]...acceptance be but life from the dead?" (Romans 11:15). Ultimately, the divine will is fulfilled through both Christian and Jewish means, in history, while each community is dependent, in different ways, upon the unfolding of God's future and the coming Parousia of Christ.

At a time when women were expected to be homemakers, she set her sights on Stanford University. When she graduated near the top of her law school class in 1952, no firm would even interview her. But Sandra Day O'Connor's story is that of a woman who repeatedly shattered glass ceilings—doing so with a blend of grace, wisdom, humor, understatement, and cowgirl toughness. She became the first ever female majority leader of a state senate. As a judge on the Arizona Court of Appeals, she stood up to corrupt lawyers and humanized the law. When she arrived at the United States Supreme Court, appointed by President Ronald Reagan in 1981, she began a quarter-century tenure on the Court, hearing cases that ultimately shaped American law. Diagnosed with cancer at fifty-eight, and caring for a husband with Alzheimer's, O'Connor endured every difficulty with grit and poise. Women and men who want to be leaders and be first in their own lives—who want to learn when to walk away and when to stand their ground—will be inspired by O'Connor's example. This is a remarkably vivid and personal portrait of a woman who loved her family, who believed in serving her country, and who, when she became the most powerful woman in America, built a bridge forward for all women. Praise for First "Cinematic . . . poignant . . . illuminating and eminently readable . . . First gives us a real sense of Sandra Day O'Connor the human being. . . . and North America offer new or recently updated interpretations of the works of seventeenth-century Italian painter Michelangelo Merisi da Caravaggio and of his many followers known as the Caravaggisti. The volume deals with all the major aspects of Caravaggio's paintings: technique, creative process, religious context, innovations in pictorial genre and narrative, market strategies, biography, patronage, reception, and new hermeneutical trends. The concluding section tackles the essential question of Caravaggio's legacy and the production of his followers—not only in terms of style but from some highly innovative strategies: concettismo; art marketing and the price of pictures; self-fashioning and biography; and the concept of emulation.

painter, draftsman, sculptor, and architect, Michelangelo Buonarroti (1475–1564) was celebrated for his *disegno*, a term that embraces both drawing and conceptual design, which was considered in the Renaissance to be the foundation of all artistic disciplines. To his contemporary Giorgio Vasari, Michelangelo was “the divine draftsman and designer” whose work embodied the unity of the arts. Beautifully illustrated with more than 350 drawings, paintings, sculptures, and architectural views, this book establishes the centrality of *disegno* to Michelangelo's work. Carmen C. Bambach presents a comprehensive and engaging narrative of the artist's long career in Florence and Rome, beginning with his training under the painter Domenico Ghirlandaio and the sculptor Bertoldo and ending with his seventeen-year appointment as chief architect of Saint Peter's Basilica at the Vatican. The chapters relate Michelangelo's compositional drawings, sketches, life studies, and full-scale cartoons to his major commissions—such as the ceiling frescoes and the Last Judgment in the Sistine Chapel, the church of San Lorenzo and its New Sacristy (Medici Chapel) in Florence, and Saint Peter's—offering fresh insights into his creative process. Also explored are Michelangelo's influential role as a master and teacher of *disegno*, his literary and spiritual interests, and the virtuoso drawings he made as gifts for intimate friends, such as the nobleman Tommaso de' Cavalieri and Vittoria Colonna, the marchesa of Pescara. Complementing Bambach's text are thematic essays by leading authorities on the art of Michelangelo. Meticulously researched, compellingly argued, and richly illustrated, this book is a major contribution to our understanding of this timeless artist.

Dr Basil Keen examines the background that led to the formation of an ad hoc body to give the first performance in England of J.S. Bach's B minor Mass. The musical and organizational effects of a permanent choral society drawn from one social group are traced during the first twenty years, after such time the pressures of social change led to a complete review followed

by a restructuring of the methods of recruitment and internal organization. The rebuilding of the choir at the opening of the twentieth century, the expansion of the repertoire, the upheaval resulting from the First World War and the impact of these events on preparation and performance, are all considered. The book is essentially structured around the tenure of successive Musical Directors: Otto Goldschmidt, Charles Villiers Stanford, Walford Davies, Hugh Allen, Ralph Vaughan Williams, Adrian Boult, Reginald Jacques and David Willcocks, since their varied tastes and interests inevitably had a decisive influence on policy. Keen draws upon previously unpublished material, including minutes and correspondence of the Bach Choir, interviews with relatives and descendants, and examination of family records and correspondence. To date, there has been no survey of a major London choir that encompasses the full history of the organization in context. In this study, Dr Basil Keen provides a thorough examination of the Bach Choir, including the response of the choir to social changes; the influence of conductors and officials; changes in musical taste; relationships with composers and composition; major national and international events; and the effect of these matters on organization and repertoire.

What this

book reveals: God Almighty needed a trusted vessel – the right body – to channel His salvation plan. After centuries of search, He did settle on Mary, a virgin girl that lived in Galilee, who had the perfect body, the right attitude, and sufficient faith. Undeniably, an imperfect body would have defiled the divine nature of Christ; the wrong attitude would have delayed the salvation plan, and an insufficient faith would have jeopardized the entire plan. When God found the right body, He did not only purify it, but He also filled it with infinite grace. Indeed, the salvific project required maximum precision; precision that ought to be multimillion times more accurate than sending shuttles into space. Fault tolerance for the salvific mission was zero. Mary was not only part of the plan, but her body, attitude, and faith were critical to the success of the entire mission. While it is true that God prepared Mary she for the role, God respected her freewill and sought her cooperation. Unlike Eve, she cooperated with God and submitted to His will. While many Christians do not give Mary her pride of place, their disdain does not diminish the unique role she played in the salvific plan. Also, their disdain does not diminish the favors she gained from God and made manifest by her divine maternity. Indeed, Mary is blessed above all women, not because we think, believe, or say so, but because it is so. Indeed, the Mighty One has done great things for her, and holy is His Name. Pidomson navigates on a very high frequency of spiritual plane. I commend him for this excellent treatise on the Blessed Virgin Mary. It is an area of Christian doctrine that few venture to explore. The author has shown that it is not an impossible task. – Rev. Fr. Prof. John U. Gangwari, Catholic Institute of West Africa Pidomson's revelatory book gives us the enlightened, timeless wisdom of Mariology

in a way that helps us to rediscover the original meaning and efficacy of time tested devotion to the Blessed Virgin Mary. He presents his arguments with clarity and simplicity that transcends theological nitpicking. This timeless spiritual message is urgently needed. – Rev. Mesgr. Livy Boniko, Parish Pastor, Immaculate Heart Parish, Port Harcourt, Nigeria. This book is about the Mother of Jesus who has bequeathed to us the lively example of knowing how to continue prodding God for divine compassion and generosity. Her intervention in John 2 reveals her to be a catalyst to Jesus' extravagant generosity, both in quantity and quality that kept the wedding party at Cana in Galilee going. These lines beautifully crafted by Dr. Gabriel Pidomson encourages us through the example of Mary to know how to nudge God, asking what God has in mind for our particular challenges even as She intercedes for us saying "They have no wine." – Rev. Msgr. Dr. Pius Kii. Faculty of Canon Law, Catholic Institute of West Africa
"Pidomson's work is a masterpiece. The book will go far to touch so many souls – believing, doubting, and seemingly lost. I thank God for granting me the opportunity to be thinly associated with this divine message/revelation. May God bless him for this divine revelation." – Mr. Chris Okonkwo, Editor in Chief, National Network

[Download pdf file The Medici](#) Theologian and writer Robert M. Price is perhaps best known today for his scholarly arguments against the existence of a historical Jesus. Yet, he has been at various times in his career an agnostic, an exponent of Liberal Protestant theology, a nontheist, a secular humanist, a religious humanist, a Unitarian-Universalist wannabe, an unaffiliated Universalist, and a Fellow of the Jesus Seminar. Any way you cut it, he is not your typical atheist. This collection of his best essays demonstrates his love for the various great religions, which he views as endlessly fascinating expressions of the human spirit. Beneath the keen insights and sharp critiques he offers, whether the subject is theology, secularism, or biblical studies, the essays themselves are also deeply personal and revealing. Read together, they document his self-extrication from the born-again Christianity in which he dwelt for some dozen years--and his subsequent rise to celebrated freethought advocate whose work has challenged an entire field.

[Download pdf file A Critical Commentary and Paraphrase of the Old and New Testament and the Apocrypha](#) Lou Baumgaertner was born and bred in New York City, and although he also lived amongst the Border States, and even in the South, he was a New York Yankee to his dying day. Part of that, of course, could be attributed to his being a die-hard fan of

the best baseball team in the world, the New York Yankees. But being a New York Yankee also meant so much more New Yorkers tend to be different from those who live in other regions, and frequently are easily recognized by others as either being different, or more precisely as being from New York. Sometimes that recognition is not accompanied by a warm feeling of acceptance. But we New Yorkers know we are different. We have our own accent although those who live in New York City might argue its all the others who have accents we speak perfectly normally. Because we live in a Big City, we talk fast, we seem brusque, and we sometimes appear to lack patience with others. We dont mean to be rude, but the demands of surviving in a Big City (almost any Big City) require a no-nonsense attitude to life to avoid being run over by those around us. But once you get to know us, were pretty nice people. We New Yorkers are proud of ourselves, and of our city, and we have a right to be. It may not be the Capital of the Country, but many New Yorkers often think of it as such to a true New Yorker, there is only one New York City! And New York City is the Business and Cultural Capital of the Country! This ubiquitous sentiment is why New Yorkers are so often accused of not playing well with the other kids on the block. And New Yorkers are definitely Yankees. No one should argue with that point. We live well above the Mason-Dixon Line. We fought for the North during the Civil War. And although there are others who can rightly and proudly also proclaim themselves as being Yankees, these other Northerners dont also happen to have the best baseball team in the world residing in their city, now do they? And so, by way of example, lets take a look at one particular New York Yankee. Lou Baumgaertner was a War Baby, born in the Bronx during the First World War. He spent his childhood in the Bronx and Corona during the Roaring Twenties, and began to mature in Corona and Manhattan during the Great Depression. He worked in Manhattan for years, but eventually got an opportunity for a new career in radio-communications in Louisville, KY. He tried to avoid induction into the military as World War II geared up, but eventually found that no one who could hold a rifle and shoot straight was going to miss the opportunity to serve his Uncle Sam. Like so many of his generation, the Second World War finished the maturing process, and put a fine polish on the person he had become. Here then are his adventures, in New York City, during World War II, and amongst the Border States, during the 20th Century.

[Download pdf file Israel, the Church, and Millenarianism](#) _____ A groundbreaking narrative on the urgency of ethically designed AI and a guidebook to reimagining life in the era of intelligent technology. The Age of Intelligent Machines is upon us, and we are at a reflection point. The proliferation of fast-moving technologies, including forms of artificial intelligence akin to a new species, will cause us to confront profound questions about ourselves. The era of human intellectual superiority is ending, and we need to plan for this monumental shift. A Human Algorithm: How Artificial Intelligence Is Redefining Who We Are examines the immense impact intelligent

technology will have on humanity. These machines, while challenging our personal beliefs and our socioeconomic world order, also have the potential to transform our health and well-being, alleviate poverty and suffering, and reveal the mysteries of intelligence and consciousness. International human rights attorney Flynn Coleman deftly argues that it is critical that we instill values, ethics, and morals into our robots, algorithms, and other forms of AI. Equally important, we need to develop and implement laws, policies, and oversight mechanisms to protect us from tech's insidious threats. To realize AI's transcendent potential, Coleman advocates for inviting a diverse group of voices to participate in designing our intelligent machines and using our moral imagination to ensure that human rights, empathy, and equity are core principles of emerging technologies. Ultimately, *A Human Algorithm* is a clarion call for building a more humane future and moving conscientiously into a new frontier of our own design. "[Coleman] argues that the algorithms of machine learning—if they are instilled with human ethics and values—could bring about a new era of enlightenment." —San Francisco Chronicle
