Download pdf file From writing the perfect love scene to finding the right publisher--All you need to fulfill your dreams"There are ways to create, fix, steer and discover plots—ways which, over a writing life, you'd eventually puzzle out for yourself," writes Ansen Dibell. "They aren't laws. They're an array of choices, things to try, once you've put a name to the particular problem you're facing now." That's what this book is about: identifying those choices (whose viewpoint? stop and explain now, or wait? how can this lead to that?), then learning what narrative problems they are apt to create and how to choose an effective strategy for solving them. The result? Strong, solid stories and novels that move. Inside you'll discover how to: • test a story idea (using four simple questions) to see if it works • convince your reader that not only is something happening, but that something's going to happen and it all matters intensely • handle viewpoint shifts, flashbacks, and other radical jumps in your storyline weave plots with subplots • get ready for and write your Big Scenes • balance scene and summary narration to produce good pacing • handle the extremes of melodrama by "faking out" your readers—making them watch your right hand while your left hand is doing something sneaky • form subtle patterns with mirror characters and echoing incidents • choose the best type of ending—linear or circular, happy or downbeat, or (with caution!) a trick ending Whether your fiction is short or long, subtle or direct, you'll learn to build strong plots that drive compelling, unforgettable stories your readers will love.

Download pdf file Studies in education and guidanceSeveral years ago, after many years of writing nonfiction, I decided to write a novel-a medical thriller in the mold of Robin Cook, Michael Crichton, and Michael Palmer. The problem was that, although I knew how to write and had received a number of awards for nonfiction works, I didn't know the how to write fiction. So, before putting fingers to keyboard I did a thorough search of the literature, which included reading numerous books and hundreds of website articles. What I discovered was that there simply wasn't one good source from which to learn the craft of writing genre fiction. "Writing Genre Fiction: A Guide to the Craft" is the book I was looking for when I set out on my quest to learn how to write fiction. It is an attempt to share what I learned from my research. It covers the six key elements of genre fiction; the various genres and subgenres; a large number of genre-fiction writing techniques; plot, subplots, and parallel plots; structure; scene and sequel; characterization; dialogue; emotions; and body language. It also covers additional information about copyrighting and plagiarism, where to get ideas, manuscript formatting and revision, and query letters and synopses. In addition, an appendix covers a large number of grammar tips.

Download pdf file Ready, Set, LearnA fun, practical guide that reveals the essentials of good fiction and memoir writing by exposing the most common mistakes literary writers make. All great works of fiction and memoir are unique-but most bad novels, stories, and memoirs have a lot in common. From clunky dialogue to poorly sketchedout characters, sagging pacing to exaggerated prose, these beginners' mistakes drive any agent or editor to their stock rejection letter, telling the aspiring writer "Thanks, but this isn't for us," and leaving many to wonder what exactly it is that they're doing wrong. Veteran writing coach, developmental editor, and writing instructor Jessica Page Morrell will fill in the gaps in every rejection letter you've ever received. In Thanks, But This Isn't for Us, Morrell uses her years of experience to isolate the specific errors beginners make, including the pitfalls of unrealistic dialogue, failing to "show, not tell," and over-the-top plot twists. These are just a few of the problems that keep writers from breaking through with their work. Sympathetic and humane, but pulling no punches, Thanks, But This Isn't for Us shows writers precisely where they've gone wrong and how to get on the right track. In sixteen to-the-point chapters, with checklists, exercises, takeaway tips, and a glossary, Morrell helps readers transcend these mistakes so that they don't have to learn the hard way: with another rejection letter.

He understood that being a playwright is more than putting pen to paper. It involves expressing a personal point of view, bringing a vision to life, developing dimensional characters, structuring a play's action, and finding producers, directors, and actors to bring the work to life. In the second edition Norman Bert infuses the enduring merits of Catron's original work with examples, technological developments, and trends geared to today's readers. Bert's play references are familiar to contemporary students, including examples from plays written since 2000. He includes useful information on web-based research and the electronic submission process. A new chapter focuses on the playwright's responsibility to lay the groundwork for production elements like casting, design, theatre architecture as it impacts audience–performer relationships, staging modes, and the uses and expectations of stage directions. Also new to this edition are reading resources for delving deeper into topics discussed.
